

AO Themed Grant Call Diversity / Developing Countries Grants to a maximum of £5000 - Closing date 30 September 2022

This grant call is targeted at projects on the theme of:

1. Diversity in trauma care

The project should focus on an aspect of healthcare inequality in the patient population or increasing diversity within the workforce

2. Developing countries

The project must be partnered with a researcher in a developing country. The lead researcher can be based in the UK or Ireland, but the research must be focused on a patient population within a developing country themed on trauma care

Applicants who have not previously been awarded funding will be given preference with mentoring available from the research committee if required. Applicants can apply for both funding streams but will only be awarded one grant per research team.

Reports will be expected at 3 months, 6 months and 1 year from award of the funding. The project should be completed within a year of funding if the researcher is employed full time, two years if part-time or in flexible training.

Applications by email to:

aouki1@btconnect.com or by post to the address below.
