

Research Grants 2023

This call is open to orthopaedic, veterinary and maxillo-facial surgeons, trainees and operating room personnel involved in trauma care. Applicants should submit a completed application form of their research proposal, which may involve any aspect of musculoskeletal trauma, including hand, facio-maxillo-cranial, spine and veterinary trauma.

Major Research Grant

AOUK & I invite applications for research grant funding of up to **£10,000**

Preference will be given to applications from researchers who have not previously received funding and must demonstrate clear translation to improving outcomes in trauma care. Particular attention should be paid to the accompanying notes for guidance. Supporting signatures & documentation including a Gantt chart should accompany the application which must be submitted by: **31 August 2023**.

Minor Research Grant

AOUK & I invite applications for research grant funding of up to **£5,000**

Preference will be given to applications related to a higher degree or pump priming activity with potential to lead to a more significant project. Particular attention should be paid to the accompanying notes for guidance. Supporting signatures & documentation must accompany the application which must be submitted by: **31 August 2023**.

Application forms and notes for guidance can be obtained at the research section of the website: www.aouk.org

Completed applications or queries around suitability of a project should be sent to: **Professor Caroline Hing, Research and Development Chair, AOUK (aouki1@btconnect.com)**
